Subject: RE: language for contingency measure commitment letter

Hi –

I was able to resolve the issue. Please proceed with getting the letter signed. Sorry for the false alarm.

Subject: RE: language for contingency measure commitment letter

Hi Mike and Carol –

Thank you again for working with us to resolve issues that have come up as the EPA draft's the Coachella Valley NPR. I hate to say this, but please hold off on getting the SCAQMD letter signed. I am double checking with Jesse on a new issue that we may want to also resolve, if necessary, in the letter.

Sorry to put the breaks on the letter. I hope to be able to get back to you asap.

Thanks

John Ungvarsky

Background

Most-recent SCAQMD draft letter attached.

July 31 EPA (John U) comment:

Sorry, but we aren't entirely comfortable with CARB's suggested insertion of "effective date." We suggest language that is closer to the CAA. For that reason, we recommend the following edits below. If you'd like to discuss further, Jesse and I are available for a brief call. Hopefully you'll be able to see the cross-outs and underlines.

Under this commitment, the South Coast AQMD will adopt the rule and/or rule amendment and transmit the adopted/amended rule(s) to CARB to allow CARB to submit it to U.S. EPA not later than 1 year after the ~~within 12 months of the effective~~ date of the U.S. EPA's ~~final action~~ conditional approval ~~on~~ of the RFP and attainment contingency measure element for Coachella Valley for the 2008 8-hour ozone standard.

July 31 CARB (Carol) follow-up comment:

Does "the date of the U.S. EPA's conditional approval of the...." mean the day of signature of the "final" conditional approval, the date of publishing, or the effective date? We had included the "effective date" language at the request of Region 9 attorney's in the past.
